Solutions could include offering discounts or promotions to these customers, identifying and addressing any issues they may have with the company's products or services, and conducting market research to determine what these customers are looking for in a supplier.

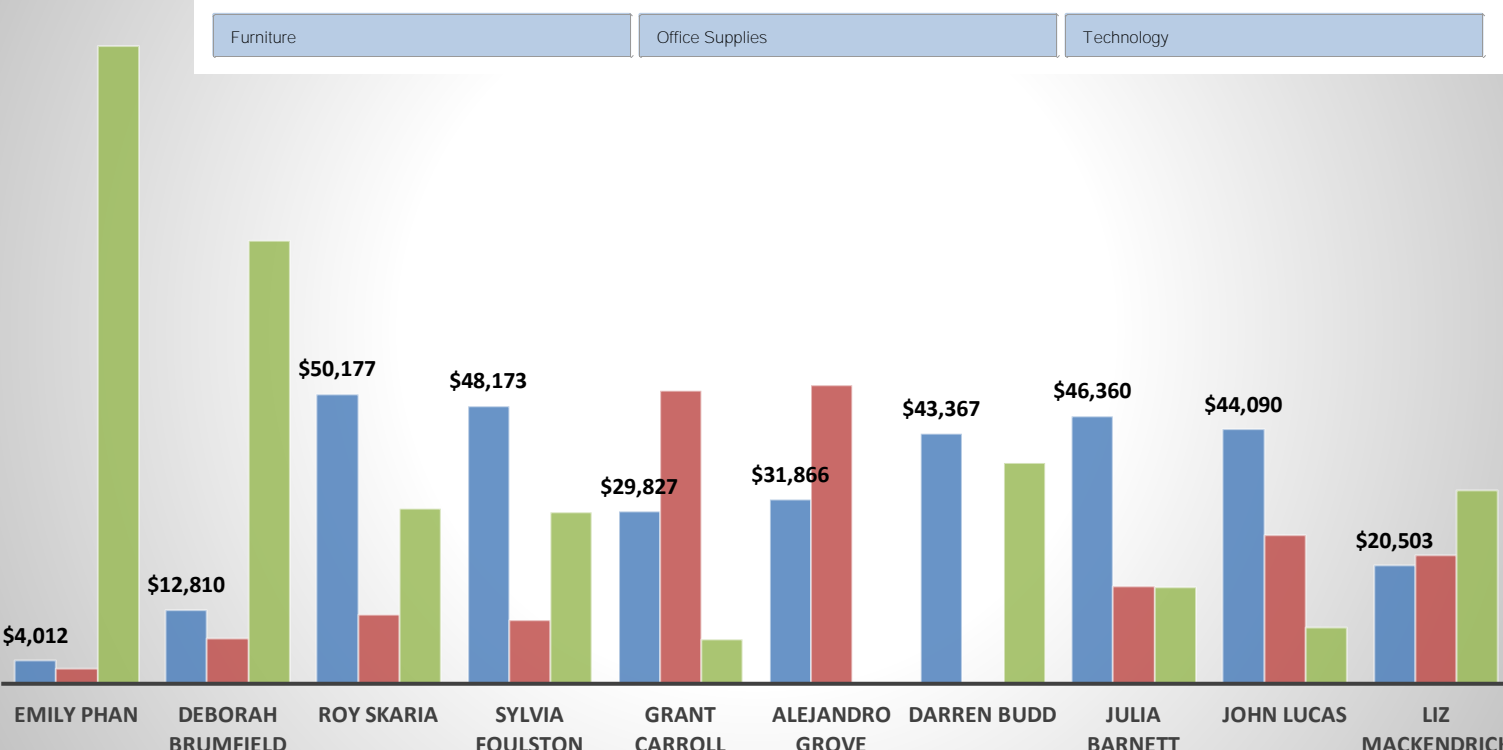

Total Sales of Appliances in Ontario

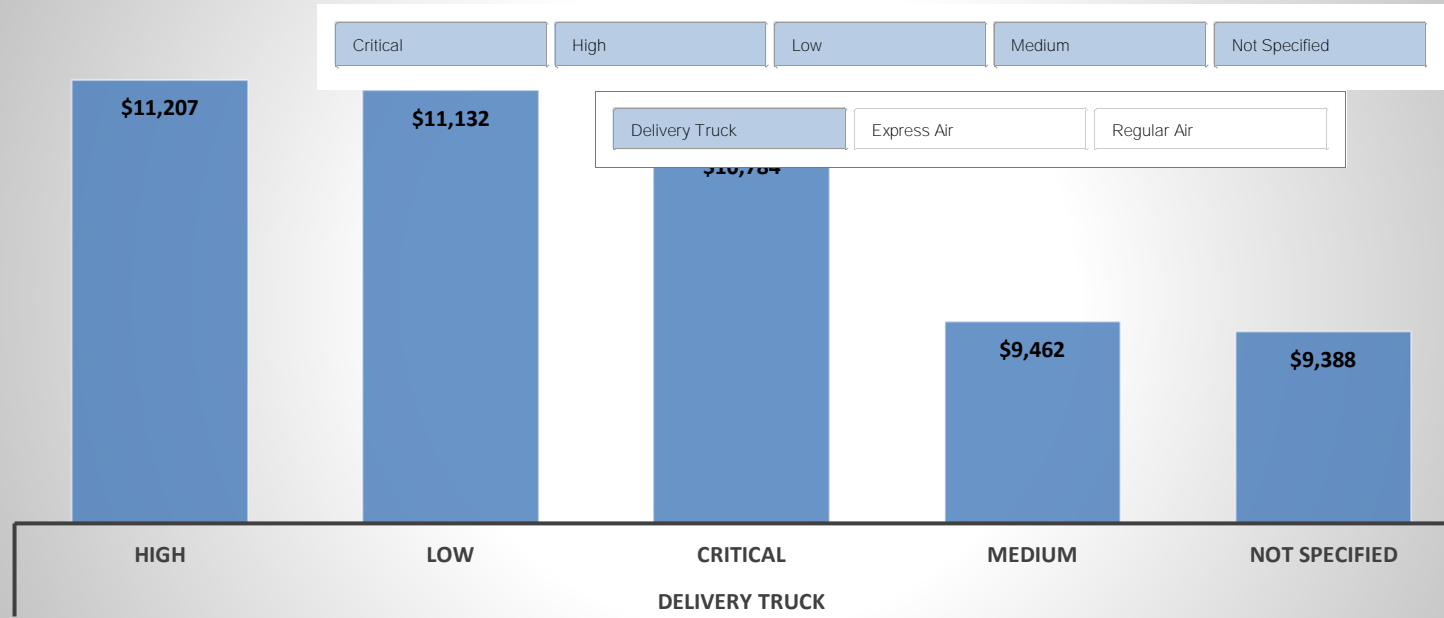

Top 3 and Bottom 3 Regions

Purchase by Most Valuable Customers

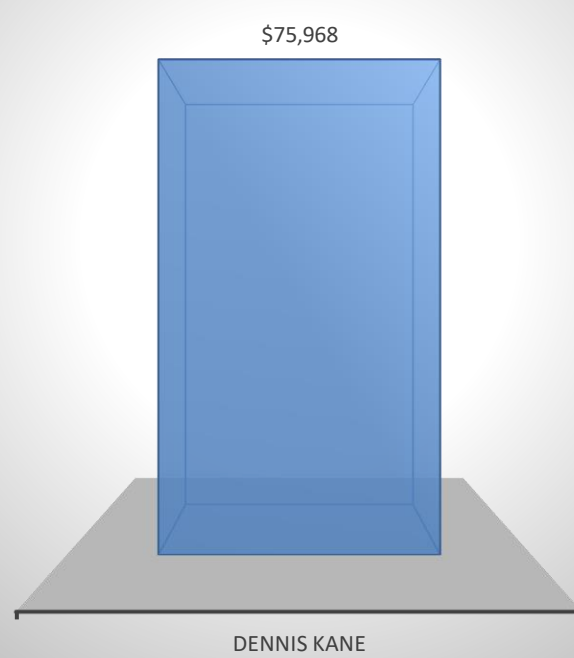

Shipping Cost by Order Priority

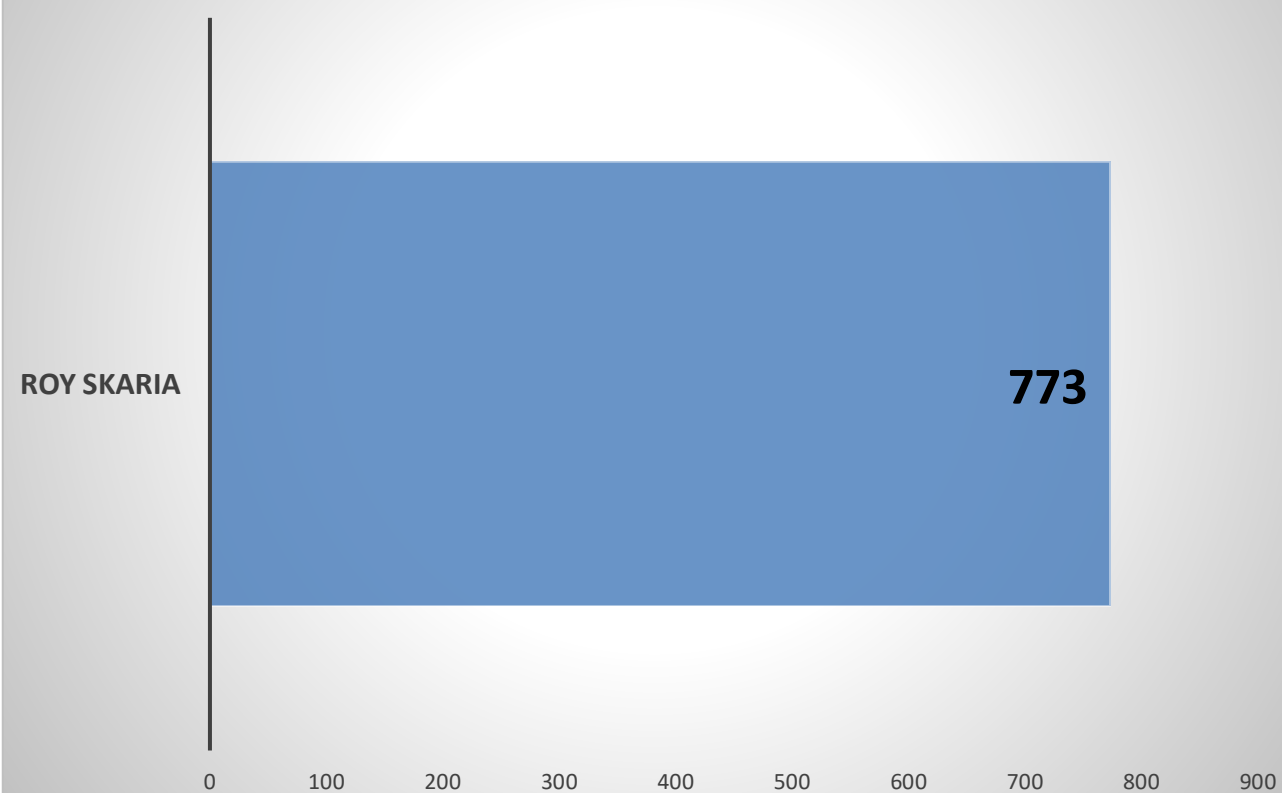

The chart above provided is the total costs associated with delivery truck method of shipping and Order Priority, but it does not indicate how many orders were placed. Additionally, it does not show the relation between the cost and time for the different priority levels. Without this information, it is impossible to determine whether the company made cost-effective
